I

Instant Notes titles focus on core information and are designed to help undergraduate students come to grips with a subject quickly and easily.

Instant Notes in Chemistry for Biologists, Second Edition is a concise yet comprehensive book for undergraduates in the life sciences who have a limited background in chemistry. This book covers the main concepts in chemistry, provides simple explanations of chemical terminology, and extensively illustrates underlying principles and phenomena in the life sciences with clear biological examples. Building on the success of the first edition, the second edition has been fully revised and updated and includes new sections on water as a biological solvent, inorganic molecules and biological macromolecules.
