Based on years of experience teaching and writing supplemental materials for more traditional precalculus texts, Reva Narasimhan takes a functions-focused approach to teaching and learning algebra and trigonometry concepts. This new series builds up relevant concepts using functions as a unifying theme, repeating and expanding on connections to basic functions. Visualization and analysis motivate the functions-based approach, enabling students to better retain the material for use in later calculus courses.

Mary Adams:

As a scholar exactly feel bored to help reading. If their teacher questioned them to go to the library as well as to make summary for some publication, they are complained. Just very little students that has reading's heart and soul or real their passion. They just do what the professor want, like asked to go to the library. They go to there but nothing reading really. Any students feel that studying is not important, boring and can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for yourself. As we

know that on this period, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this College Algebra: Enhanced Edition (with Enhanced WebAssign 1-Semester Printed Access Card) (Available 2010 Titles Enhanced Web Assign) can make you feel more interested to read.
