Applied Mathematical and Physical Formulas Vukota Boljanovic

The new and revised version of this comprehensive pocket reference guide is ideal for anyone who deals with physics, chemistry, mathematics, finance, and computer systems and needs to review or quickly refresh their memory of what they studied in school. It covers the fundamentals of arithmetic, algebra, geometry, trigonometry, and analytical geometry, and statistics, and presents the application of differential equations and integral calculus. It reveals the comparative advantages of binomial distribution, standard distribution, Poisson distribution, and normal distribution, and includes most used definitions and formulas of kinematics, dynamics, statics, mechanics of fluids, thermal variable of state, thermodynamics, electricity and magnetism, light, and atomic and nuclear physics. It also presents applications and solutions to problems concerning simple interest, compound interest, effective rate, annuity, amortization of loans, and sinking fund payments.

Features

- A quick reference for engineers, technicians, toolmakers, machinists, students, and teachers.
- Includes more than 1,300 formulas, definitions, and figures used in mathematics and physics, plus complete coverage of S.I., metric, and U.S. customary units.
- New to this revised edition are sections on arithmetic, mathematical fundamentals of computer science, units of measure in precious metals, and more.
- Key topics have been clarified, and more than 150 line illustrations have been improved.
- The index has been expanded to help guide readers through this information-packed reference.

From reader reviews:

Kenneth Williams:

The book Applied Mathematical and Physical Formulas make one feel enjoy for your spare time. You need to use to make your capable a lot more increase. Book can for being your best friend when you getting strain or having big problem along with your subject. If you can make examining a book Applied Mathematical and Physical Formulas for being your habit, you can get much more advantages, like add your current capable, increase your knowledge about a number of or all subjects. You can know everything if you like wide open and read a reserve Applied Mathematical and Physical Formulas. Kinds of book are a lot of. It means that, science reserve or encyclopedia or others. So , how do you think about this book?

Charles Baker:

Information is provisions for anyone to get better life, information presently can get by anyone on everywhere. The information can be a expertise or any news even a huge concern. What people must be consider any time those information which is within the former life are hard to be find than now could be taking seriously which one would work to believe or which one typically the resource are convinced. If you have the unstable resource then you have it as your main information you will see huge disadvantage for you. All those possibilities will not happen inside you if you take Applied Mathematical and Physical Formulas as your daily resource information.

Laura Crabtree:

Spent a free a chance to be fun activity to accomplish! A lot of people spent their spare time with their family, or their particular friends. Usually they doing activity like watching television, likely to beach, or picnic within the park. They actually doing ditto every week. Do you feel it? Do you wish to something different to fill your own personal free time/ holiday? Can be reading a book could be option to fill your totally free time/ holiday. The first thing you ask may be what kinds of e-book that you should read. If you want to attempt look for book, may be the e-book untitled Applied Mathematical and Physical Formulas can be fine book to read. May be it is usually best activity to you.

Virginia Kang:

Within this era which is the greater particular person or who has ability to do something more are more special than other. Do you want to become one of it? It is just simple solution to have that. What you must do is just spending your time not much but quite enough to enjoy a look at some books. One of the books in the top listing in your reading list is Applied Mathematical and Physical Formulas. This book which can be qualified as The Hungry Mountains can get you closer in turning out to be precious person. By looking right up and review this book you can get many advantages.
