*Reincarnation* is the rebirth of a soul into a new body, a new life; for the soul to be reborn again and again with each subsequent life a chance for the soul to learn and grow. The book *Reincarnation* contains a series of articles written by a range of different individuals. This volume explores not just the concept of reincarnation but also the concept of karma. While many people think of karma as "good" and "bad" the book postulates that "no karma is ever evil, for even those reactions upon the individual of the most serious errors tend in the end to aid the growth of the spirit." All karma allows the soul a chance for growth. And with each incarnation and every experience, the soul aims to achieve the ultimate goal: "the great desideratum is to be free -not from rebirth - but from the necessity for rebirth."

For the reader who is not familiar with all of these philosophical and spiritual concepts, the book explores many facets and schools of thought on these topics. For the reader who has knowledge of reincarnation, it offers new viewpoints and ideas. An addition concept thoroughly explore in this book is that of fate. Often, fate is entwined with karma, and different beliefs are held about the true relationship between these two. While some believe in cause and effect, others believe in destiny. Ultimately, this volume argues that man has control over his karma, fate, and his soul's growth.
