Complete summary of Lars Tvede's book: "Supertrends: Winning Investment Strategies for the Coming Decades".

This summary of the ideas from Lars Tvede's book "Supertrends" shows that in order to be highly successful as an investor, there's no point looking at projected profits for investments in the next twelve months alone. Instead, you need to take into account the big picture and the underlying long-term trends to make astute investment decisions. In his book, the author explains how the future value of investments made today will be directly influenced by developments in politics, conflict, economics, demographics, environment, lifestyles, business, finance and technology. This summary will teach you to take these into account in order to make the right investment.

Added-value of this summary:

- Save time
- Understand key concepts
- Expand your knowledge

To learn more, read "Supertrends" and find out how you can use cycles to predict future success and make the right investment.
